SUMMARY

With 2+ years of experience in mobile software, I am a skilled engineer with expertise in Dart, Kotlin, and JavaScript. Whether flying solo or in a team, I've shaped everything from simple to fin-tech apps. Challenges excite me, and my forte lies in creating captivating, user-centric experiences.

PROFESSIONAL EXPERIENCE

Mobile Lead @ DevEngine (December-2023 – present)

- Led initiatives resulting in a 30% performance enhancement and scalability boost across existing codebases.
- Architected and implemented a novel system architecture, enhancing code maintainability and reducing bugs by 20%.
- Pioneered the integration of CI/CD practices, leading to a 50% reduction in deployment failures and accelerating release cycles.
- Turbocharged team efficiency, slashing development time by over 40%.
- Mentored junior team members, fostering a culture of learning and professional growth.

Technologies: **Android SDK, Flutter.**

Mobile Engineer @ Eachblock (January-2023 – December-2023)

Orchestrated seamless collaboration, delivering dozens of features with precision and quality.

Technologies: **Flutter.**

SKILLS

Languages: Dart, Kotlin, Javascript

Frameworks: Flutter

Other: CI/CD practices, BLOC pattern, SOLID principles, Team leadership, Mentoring

Platforms: Android, iOS (Basic)

EDUCATION

- B.Eng Electrical & Electronics Engineering, Federal University of Technology Minna, Nigeria.
- Completed a React Learning Program through Andela.
